Information Circular No. 74

An X-Ray Diffraction Examination of Flue-Side Deposits
from Power-Station Boilers

by H. D. Taylor and J. B. Nelson

CONTENTS

	Page
Summary	1
(1) Introduction	2
(2) Aim of Present Work	3
(3) Previous Work on Deposits	3
(4) General Principles of Identification of Crystalline Phases by X-Ray Powder Patterns	6
(5) Investigation of the Deposit Samples	7
(5.1) Experimental Method	7
(5.2) Experimental Results	11
(6) Discussion and Conclusions	15
(7) Acknowledgments	19
(8) Appendix	20
(9) References	22
